

Appln No 09/655,893

Attorney Docket No. 10541-2085

III. Amendments to the Drawings

The Examiner objected to the drawings under 37 C.F.R. 1.83(a) as not showing every feature of the invention specified in the claims. The paragraphs beginning at page 13, line 24 and page 14, line 13 have been amended to more specifically identify the features of this invention, namely, a first pre-circuit assembly and second pre-circuit assembly. Therefore, the changes to the specification have rendered this objection moot.
